

Windsor Residents Reminded of Winter Property Maintenance

The Town of Windsor asks the community's help in maximizing snow removal efforts by:

- Windsor residents and business owners are responsible for shoveling sidewalks within 24 hours after a snow storm and for keeping all sidewalks free of snow and ice.
- **Pile** snow in the grass areas of your property, not in the street. It is unlawful to shovel snow from driveways and sidewalks into the street or public right of way, typically five feet behind the curb. Do not pile snow on or around fire hydrants.
- **Clearing flow pans and gutters to help eliminate ice backups in storm drains.**
- If you have mail boxes on or around your walk, you should make sure snow is shoveled and area is clear.
- **Parking vehicles in driveways. Remove vehicles from the street so that snow removal equipment can plow the area.**
- **Trimming trees along public roads in order for** snow removal equipment to get as close to the curb as possible.

“Our crews often work around the clock during snowstorms to clear the roads and apply de-icing material,” said Streets Supervisor Brian Rowe. “We greatly appreciate the community’s help in keeping our streets safe by clearing gutters and not piling snow in the street. Our snow crew has noticed a big difference in just one year, because of help from the community.” If you see snow purposely moved into the street or sidewalks that haven’t been cleared within 24 hours, please call the Town of Windsor Code Enforcement team at 970-674-6400.
